# As Flood Waters Covered Shoto and Mishicot

Flood waters of the West Twin river covered all except a small portion of the village of Shoto. The top picture taken from the west end of the village shows the submerged road and a stalled automobile, owned by Ernst Kienbaum, Route 2, Manitowoc. The mill is at the left. An idea of the depth of the water can be obtained from the telephone pole at the right of the picture. (Herald-Times Photo.)

There was more than two feet of water in the Joseph Dvorak residence at Mishicot, shown in the picture at the right. The residence, located close to the bank of the West Twin river, bore the brunt of the flood. The Dvorak family had time to move furniture to the second floor and escape in a boat before the water reached the first floor level. (Herald-Times Photo.)

The lower picture, taken by Deputy Sheriff Gene Spevachek from the north bank of the West Twin river at Shoto, shows Paul Gosz risking the danger of an icy plunge, standing atop the mill dam awaiting an opportunity to break up an ice jam with a pike pole. The Shoto mill can be seen in the background.
